

# GAGE110/050-C11-11

## Megapixel Telecentric Lens

- The imaging quality is perfect and supports five million pixel digital cameras;
- Strong mechanism design, with high shock resistance;
- Excellent central and peripheral imaging;
- Used in high-precision visual positioning and other occasions.

Sensor Type	2/3"
Magnification	0.5X
Work Distance	110mm
FOV	Φ22
Resolution Ratio(Image Space)	11μm
DOF	±1mm
WFNO/ONA	9.6/0.026
Optical Distortion	<0.05%
Mount	C
Flange Diastance	17.526mm
