

GAGE110/080-C6.25-11

Megapixel Telecentric Lens

- The imaging quality is perfect and supports five million pixel digital cameras;
- Strong mechanism design, with high shock resistance;
- Excellent central and peripheral imaging;
- Used in high-precision visual positioning and other occasions.

Sensor Type	2/3"
Magnification	0.8X
Work Distance	110mm
FOV	Φ13.75
Resolution Ratio	6.25μm
DOF	±1mm
WFNO	11
Optical Distortion	0.05%
Mount	C
Flange Diastance	17.526mm
