

GAGE110/100-C5-11

Megapixel Telecentric Lens

- The imaging quality is perfect and supports five million pixel digital cameras;
- Strong mechanism design, with high shock resistance;
- Excellent central and peripheral imaging;
- Used in high-precision visual positioning and other occasions.

CCD	2/3"
Magnification	1.0X
Working Distance	110mm
FOV	Φ11
Resolution Ratio	5μm
DOF.	±1mm
WFNO	11
Distortion	0.05%
Mount	C
Flange distance	17.526mm
